## LANARK BEFRIENDING GROUP

**The CHSS Cardiac & Respiratory Support Service runs bi-monthly small befriending groups in Lanark and Cumbernauld for people living with a long-term heart or chest condition. The groups are small, normally between 6 – 10 people, and are very informal.**

The Lanark group (pictured above) started meeting in November 2012. We have a great venue for our meetings – the lounge area of a sheltered housing complex in the centre of the town.

Over the years we have been joined by a variety of guests, including local historians, the University of the Third Age (U3A) and benefits advisers. The group decided at the very beginning that they didn't want any speakers from the medical profession, or talks about their health condition.

Recently we discovered that some of our members have hidden talents and interests they are happy to share. One of our members recently gave a great talk,

with some marvelous slides, about the stars, planets and constellations we can see in the night sky.

A key aspect of both groups is the chance to blether, have a cuppa and a biscuit, relax and enjoy ourselves, with others who understand what it's like to live with a condition like heart failure.

**If you would like more information, or are interested in coming along to the Lanark or Cumbernauld group, please contact Alison Stewart on 01236 832843, you'd be most welcome to join us.**

## HEART FAILURE NURSE AND PROUD MUM!

Most of us enjoyed watching the Rio Paralympics but many of you not have been aware of the local connection. The first Scot to win a medal was 19 year old Andrew Mullen who is the son of Katriona Mullen, one of the Heart Failure nurses based at the Victoria Infirmary.

Andrew made his international debut at the age of 14 at the 2011 IPC Swimming European Championships in Berlin and has continued to rack up medals and success. In 2016 Andrew made his mark at the IPC Swimming European Championships by winning four individual gold medals, plus one silver. At Rio he won one silver and two bronze, including one for the 200m freestyle. A great achievement! Andrew is sure to continue his winning ways and his mum is rightly proud.

# WHY IT'S SO IMPORTANT FOR PEOPLE WITH HEART FAILURE TO GET THEIR FLU JAB....

**In this edition of Take Heart you are reminded to go and get this year's flu jab (if you haven't already). But why is it so important if you have heart failure?**

If you have a long-term heart condition (such as heart failure) and you catch flu, you are more likely to become very ill or get a serious complication such as pneumonia (a chest infection). Having the flu jab will help to stop you catching the flu. If you do get the flu, it is likely to be milder and shorter-lived than it would otherwise have been.

Almost a third of people admitted to hospital with flu in Scotland last winter had a heart condition. If you have heart failure, getting the flu jab means that you are less likely to be admitted to hospital with a heart-related disease.

Your carer might be eligible for a free flu jab too. Check with your GP surgery. **So don't put it off – go and get your flu jab now and help yourself stay well this winter!**

### Don't let flu catch you off guard.

If you have chronic heart disease, flu can hit you hard. Last winter, half of those admitted to hospital with flu, aged over 45, had a heart condition. Flu, don't risk it. Contact your GP practice today to arrange your free flu vaccination.

## HELP TO EAT WELL

A number of our recent patient & carer meetings featured talks by a Dietitian, giving practical hints and tips about how our diet can help us 'live well with heart failure'. This co-incided with the release of a new healthy eating guide, as pictured to the left.

For more about the Eatwell Guide, check out the Live Better Blog on page 3.

# MERRY CHRISTMAS & A HAPPY NEW YEAR TO ALL OUR READERS!

## Here are some Top Tips to deal with the icy blasts...

- Sign up for the CHSS Advice Line Weather Alert Service. This will let you know about adverse weather in advance and allow you to plan ahead. Register by calling 0808 801 0899 (free from landlines & mobiles) or text WEATHER to 66777.
- Check when your GP surgery will be open over the holidays. Remember, you can call NHS 24 on 111 for non-emergency queries when your GP surgery is closed.
- Ensure you have enough medication to last until after the festivities.
- Have a stock of emergency supplies of things like food to tide you over if the weather is too bad to go out.
- Think about who might be a good contact to help if you need it and keep their number handy.
- If you are travelling or making visits, plan how you can keep your tablets on track.

## Live Better Blog – a blog about health, wellness and a healthier you

Did you know that CHSS produces a fortnightly health blog? The Live Better Blog was launched in February 2016 by our Health Promotion team and covers a range of topics to help reduce your risk of chest, heart and stroke illness.

Why not check out our recent post about the new 'Eatwell Guide' which replaced the 'eatwell plate' in March this year to find out what's new and what's off the plate! [www.chss.org.uk/supportus/hps/eatwell-guide/](http://www.chss.org.uk/supportus/hps/eatwell-guide/)

## Low Salt Recipe

# MAC 'N' CHEESE

SERVES: 4 • PREP TIME: 10 MINUTES

COOKING TIME: 45 MINUTES

## INGREDIENTS

- 250g dried macaroni
- 40g low fat spread, unsalted
- 40g plain flour
- 600ml semi-skimmed milk
- 120g lighter cheddar cheese, grated
- 1 tsp wholegrain mustard (optional)
- 8 cherry tomatoes, cut in half
- 3 tbsp stale breadcrumbs, coated in 1 tsp of rapeseed oil
- 20g lighter cheddar cheese, for sprinkling on top
- Vegetables of your choice to serve, we suggest 300g fine green beans, topped and tailed

## METHOD

1. **Start with the pasta:** bring a saucepan of water to the boil and add the macaroni. Cook according to pack instructions. Once cooked, drain well and set aside.
2. Preheat the oven to 200°C / Fan 180°C / Gas Mark 6
3. **Next the cheesy sauce:** melt the spread in a saucepan over a medium heat. Add the plain flour, stirring continuously until combined. Cook for 2 minutes.
4. Add a little of the milk at a time, whisking continuously to ensure there are no lumps! Gradually add all of the milk and cook for 10 minutes until thickened. Add the grated cheddar and mustard, stirring until mixed.
5. Add the cooked macaroni to the sauce and mix. Pour into a large oven proof dish. Place the cherry tomatoes on top and scatter over the breadcrumbs and extra cheddar cheese. Transfer to the oven and bake for 20-25 minutes until golden.
6. Just before serving, add the green beans to a saucepan of boiling water and cook for 3 minutes, until tender. Serve with the macaroni cheese.

Dear NHS Greater Glasgow & Clyde Reader

# Chest Heart & Stroke Scotland – New Ambitions

Did you know that around 82,000 people in Greater Glasgow and Clyde today are living with chest and heart conditions, while over 26,000 people are adjusting to the detrimental effects of stroke? These health related challenges are set to rise as more of our population are expected to live longer over the coming decades. Addressing these needs can only be achieved through innovative ways of working, appropriate utilisation of resources, and the ongoing support of our dedicated volunteers.

In May 2016 Chest Heart & Stroke Scotland (CHSS) began the process of conducting a service review and restructure. The aim being to ensure sustainable and high quality services, while identifying our 'New Ambitions' for the future. This process will enable the charity to meet the needs of the Scottish population more effectively while increasing our opportunities to work with the various newly formed Health and Social Care Integrated Joint Boards within Greater Glasgow and Clyde. It is hoped that these changes will allow us to provide greater equity of care to those living with chest, heart and stroke illness at different stages of their condition journey.

Historically the provision of support for those living with Heart Failure has involved strong partnerships between CHSS and statutory services such as NHS Greater Glasgow and Clyde, working together to create mechanisms for peer support among those living with heart failure. These partnerships are built on mutual aspirations, and a shared desire to improve care.

As many of you will be aware the service provided in Greater Glasgow and Clyde, which includes a quarterly newsletter, patient and carer meeting, and one to one befriending support has been running for 6 years. Throughout this time CHSS has continued to contribute 50% of all costs, the additional monies being sourced from the local NHS Cardiac Managed Clinical Network. In recent years, however, obtaining these additional funds has become increasingly challenging as more and more services vie for the same money. With this in mind, we are seeking new ways to deliver services. **We would like to encourage you to attend the next Patient and Carers meeting to be held on Wednesday 29th March at 1.30pm (please see invitation with this issue of Take Heart).** At this meeting we will take the opportunity to discuss with you the challenges faced and the potential opportunities we may have to create sustainable peer support in the area. I hope that you take this opportunity to attend, discuss your ideas, and work with us to develop our 'New Ambitions'.

*M. O'Donnell*

**Mark O'Donnell**

Chief Executive

Chest Heart & Stroke Scotland

## PLEASE NOTE:

We will hold a Patient & Carer meeting in Lanarkshire on at Hairmyers Hospital on Monday 5th December 2016 at 1.30 pm. It would be lovely to see you there.

Although there will **not** be a winter meeting in Glasgow, **we will hold Spring meetings in both Lanarkshire and Glasgow in March 2017.** You will find more information in the invitation with this issue of Take Heart.
