

Ross Video Transcript

Ross:

Hi, my name's Ross.

I've done a few events in the past but this one seems really interesting.

I volunteer for Chest Heart & Stroke Scotland because, being 17, it's really useful to have things like this on my CV so when I go for jobs I'm more likely to get one.

I enjoy volunteering because it gives me the opportunity to get out, to participate in events I would never get to do normally. And can just meet people I wouldn't normally meet.

Text:

New skills

New friends

New experiences

New possibilities
